

# KEEP YOUR BUSINESS SECURE WITH ESET

Trust ESET with your Endpoint protection,  
a pioneer of the antivirus industry for 25 years.

Proven. Trusted.

## Endpoint Solutions

ESET Endpoint Antivirus provides companies with essential antivirus and antispymware protection, combining our award-winning engine with optional cloud-powered scanning. ESET Endpoint Security, our all-in-one solution for endpoints, on top of the antivirus and antispymware protection adds web control, device control and client antispam.

*ESET solution for business customers, ESET Endpoint Security outperformed all competitors in the comparative analysis "Fast and Effective Security for Business" by PassMark.*

## Remote Administration

Manage the security across thousands of endpoints from a single console. The tool comes free for all ESET business customers.

*"ESET's Remote Administrator is a feature-rich console that provides all the functionality needed for enterprise environments. Its design allows essential monitoring and administration tasks to be easily carried out, making it equally suitable for small and medium-sized businesses."*

## Complete Protection from Endpoints to Servers

Designed to match your company's needs without overlaps or wasting a single license, ESET Business Solutions are a perfect match for any size company.

You can mix and match endpoint protection according to your actual needs, deploying it on a range of platforms (Windows, Mac, and Linux) and devices: computers, smartphones, tablets, and servers.

All ESET Business Solutions come standard with the ESET Remote Administration console to centrally manage the security of the entire network.

ESET Business Solutions are optimized for business with over 25 seats. If you are looking for all-in-one solution for networks with up to 25 endpoints, see our ESET Security Packs offering at [www.eset.com](http://www.eset.com).
